

# Decentralised Future Of The Internet - Introduction to Web3

**Who is Pekka Kelkka?**

**Online since 1994**

**On Web3, Blockchain and**

**Cryptos 7 years**

**Web3 educator and advisor**

# Evolution of the internet

Web1

Web2

(Web2.x)

Web3?

**Where are we today?**  
**Hybrid version of the**  
**internet**  
**Not (yet) web3 - instead**  
**web2.x**

Web3

“Decentralised  
internet”

# **Problems today?**

**Blockchains do not  
communicate with each  
other**

**Security Risks**

**Bad User Experience (UX)**

**Regulation challenges**

**(Digital Assets=Cryptos)**

# **(Near) Future...**

**All the blockchains communicate with each other**

**Better security than on Web2**

**Digital Assets accepted in all jurisdictions - we the people can monetize the networks.**

**User Experience (UX) will be as good as on web2**

**Sukhran, Thank you,**

**Kiitos**

**For your time...**
